

SEMINAR NAME

Nulab's Winter Seminars July / August 2004

BASIC PC COMPUTING

Presenter: Bob Abel / Adam Hollett

In this three hour seminar we will go back to basics and show you how to set up various functions and operate various programs on your PC. If the move from optical to Digital and the increased use of PC's has left you confused this is the perfect time to have your questions answered.

This will be a down and dirty session.

AREAS TO BE COVERED:

- File Management
 - Folder Creation
 - Folder copy and or paste
 - TIFF, JPEG, PSD what do they mean
 - o What should I use?
 - o Which is better?

- Screen Display
 - Resolutions
 - Screen calibration
 - o Use of Spyder

- Backup Procedures
 - Alternative Drives
 - External Media Backups

- Studio Networks
 - Servers
 - Workstations

- Internet Usage
 - Email Configurations

We will also use the opportunity to provide a brief overview of all of Nulab's Products and services.
